Animal and Plant Health Inspection Service

Title: Importation of Small Lots of Seeds Without Phytosanitary Certificates.

OMB Control Number: 0579-0285.

Summary of Collection: Under the Plant Protection Act (PPA) (7 U.S.C. 7701-7772), the Secretary of Agriculture is authorized to prohibit or restrict the importation, entry, or movement of plants and plant pests to prevent the introduction of plant pests into the United States or their dissemination within the United States. The regulations contained in 7 CFR 319.37 prohibit or restrict the importation of living plants, plant parts, and seed for propagation. These regulations further allow small lots of seed to be imported into the United States under an import permit with specific conditions, including seed packet labeling, as an alternative to a phytosanitary certificate requirement.

Need and Use of the Information: The APHIS Plant Protection and Quarantine Program will collect information using applications for import permit submitted by persons wishing to import small lots of seed. The application provides contact information as well as specifics about the regulated article such as the country of origin, the quantity and names of articles, means of importation, and their port of entry arrival. Packets and containers must have labels and markings clearly describing the contents of seed packets; and sender, permit, and destination information. Importers are also required to notify the port of entry of pending shipment arrivals, and respond to emergency action notifications for shipments held at the port for further action. Without the information APHIS could not verify that imported items do not present significant risk of introducing plant pests and plant disease into the United States.

Description of Respondents: Individuals or households; Business or other for-profit.

Number of Respondents: 2,376.

Frequency of Responses: Reporting, Third Party Disclosure: On occasion.

Animal and Plant Health Inspection Service

TITLE: Importation of Swine Hides, Bird Trophies, and Deer Hides

OMB CONTROL NUMBER: 0579-0307

SUMMARY OF COLLECTION: The Animal Health Protection Act (AHPA) of 2002 is the primary Federal law governing the protection of animal health. The law gives the Secretary of Agriculture broad authority to detect, control, or eradicate pests or diseases of livestock or poultry. The AHPA is contained in Title X, Subtitle E, Sections 10401-18 of P.L. 107-171, May 13, 2002, the Farm Security and Rural Investment Act of 2002. The Animal and Plant Health Inspection Service (APHIS) protects the health of the U.S. livestock and poultry population. Title 9 of the Code of Federal Regulations, parts 91 through 99, governs the importation of animals, birds, and poultry, certain animal and poultry products; and animal germplasm. These regulations place certain restrictions on the importation of hides and bird trophies to prevent an incursion of foreign animal diseases into the United States.

NEED AND USE OF THE INFORMATION: APHIS will collect information from forms, certificates, and written statements, to ensure that bird trophies and certain animal hides pose a negligible risk of introducing African Swine Fever, Bovine Babesiosis, Exotic Newcastle Disease, Foot-and Mouth Disease, Highly Pathogenic Avian Influenza, and Rinderpest into the United States. If this information is not collected, it would significantly hinder APHIS's ability to ensure that these commodities pose a

minimal risk of introducing foreign animal diseases into the United States.

DESCRIPTION OF RESPONDENTS: State, Local or Tribal Government; Business or other for-profit

NUMBER OF RESPONDENTS: 264
